

Your strong partner for digital farm management

365FarmNet is the innovative agricultural software for your entire farm

The 365FarmNet platform works across all manufacturers and sectors, independent of size and type of operation

On the **desktop** or from your **mobile**: keeping an eye on operations **all the time, everywhere**

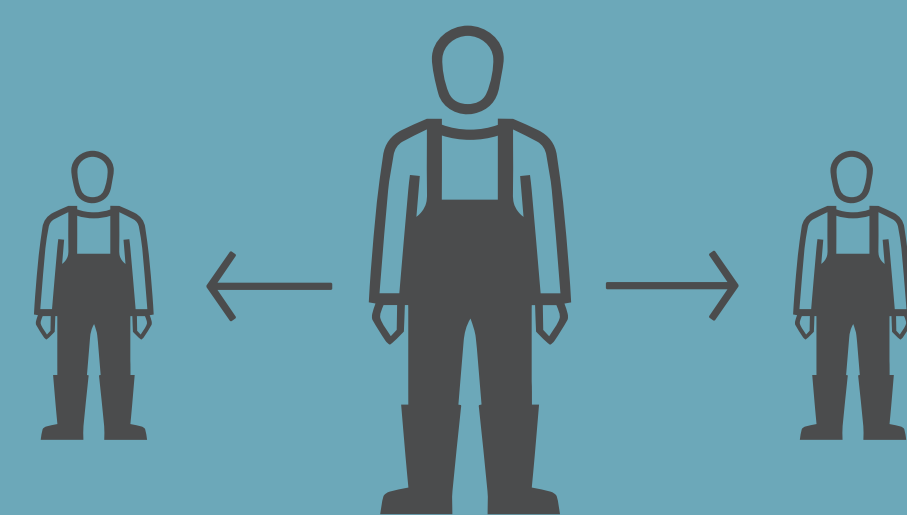

The **basic version** of 365FarmNet is **free of charge** and provides extensive basic functions for digital farm management

The innovative **modular system** and the **integrated partner apps** allow farmers to customize the platform to their needs

30 European partners, users from **20 countries**, available in **5 languages**
