

# EurAgEng AWARD OF MERIT

## Innovation into Practice

### Land.Technik-AgEng2025 Hannover

## NOMINATION FORM

The award will, in general, be made to a leading light in the industry. The winner will have made an outstanding contribution to commercial practice and to engineering innovation that has been widely recognised through new products or by governmental and other organisations, for the benefit of agriculture, environment, industry and/or the rural sector in Europe.

It is expected that the winner will, in general,

- be a leading light in the industry,
- have a clear understanding of the practical and commercial challenges facing farming, the rural environment and/or associated industry
- have made a major contribution to engineering innovation that has been recognised commercially and at international level.

The award is to be given biennially, in the “odd” years at LandTechnik-AgEng conferences.

- In addition to this form please provide a short CV of the nominee
- Please use the headings so that all nominations are comparable and can be assessed uniformly by the Judges.

Please return the form **by noon on 25 April 2025** to the Secretary General.

### The individual nominated for the Award

Name of individual	
Name of organisation	
Address	
Telephone number	
Fax number	
Email address	

**1. Please describe the product, process, activity or development with which the individual has been associated that justifies their consideration for this award.**

**2. Explain the distinctive nature of their contribution, the success of their activities, and make reference to any other matters that demonstrate the outstanding nature of the individual's contribution.**

**3. What aspects of agricultural or biosystems engineering or science have been utilised in the actions or activities with which this individual has been strongly associated?**

**4. Identify the unique contribution of the nominee to these activities**

**5. Describe how their contribution has aided the advancement in agriculture engineering, land management, environment or other aspects of the rural sector, giving examples and indicating the importance of these scientific advances and/or potential for future development.**

**6. Please provide supporting references to technical or other literature or websites, and list major awards or other recognition already made.**
